Hi Everyone,

Can't believe how fast January is speeding by! Our next workshop is coming up Feb. 9. How to design our homes and businesses to use less energy, and generate on-site the energy we do use is the topic. This workshop is a great opportunity to learn about what is happening with Net Zero Energy Building nationwide as well as hear from presenters Tom Marsik and Harvey Bowers about their Net Zero Energy projects right here in Alaska in Dillingham and Wasilla. I hope you can join us.

- Stephanie Nowers
Program Manager, Alaska Center for Appropriate
Technology

Space is limited. Register today
to reserve your spot!

Feb. 9 Net Zero Energy Building for Cold Climates

On the Path to Net Zero Energy

GET THE FACTS: Net Zero Energy (NZE) Buildings are homes and businesses that generate as much energy as they use. The Path to Net Zero Energy starts with building techniques that reduce the amount of energy a home or business uses. This workshop will provide an overview of Net Zero Energy building nationwide as well as case studies from within Alaska of retrofit and new construction using Net Zero Energy techniques. **This workshop qualifies for 5 CEUs.** Register today as space is limited.
